Dated:- 14-6-93

STANDING INSTRUCTION NO. 399

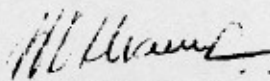

SUB: Avoiding of emergent situations necessitating award of work orders at very high rates.

In one of the cases referred by C.E.(QC) regarding "Award of work order at high rate", the concerned Chief Engineer had justified the award of works on very high rates to the contractor on the grounds that the works were of very emergent nature.

C.V.C., while communicating its views in this case, has advised that, as a preventive measure, such emergencies should be avoided because this gives scope to award of works at high rates in the name of emergency.

It is, therefore, enjoined upon all engineers to ensure that all possible steps are taken well in advance, so that development of such extreme emergencies is avoided to the maximum possible extent.

These instructions must be scrupulously followed.

ENGINEER MEMBER.
D.D.A.

1. All Chief Engineers, DDA alongwith 25 spare copies.
2. Director(Hort.) North & South, DDA with 20 spare copies.
3. Director(MM) DDA with 10 spare copies.
4. E.O.II & III.
5. File No.EM14(9)93/Vig./
