dated:- 6-12-93

STANDING INSTRUCTION NO. 4.14

SUB: Recording of reasons for the deviations made from the provisions of IS codes while designing the projects.

C.T.E. had observed in one of the works inspected by them that while the design of compaction type under rafted pile foundation was not done strictly in conformity with the provisions of relevant IS Code, no reasons for having deviated from these provisions were recorded.

It is enjoined upon all the designers to ensure that the designs are prepared as per provisions of the relevant IS Codes and if any deviations are considered necessary, reasons for the same should be recorded in writing.
