EM's OFFICE

No. EM 1(10)2005/ Cir./ 691

Dated 28/2/06

CIRCULAR No. 577

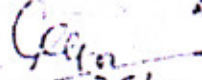

Sub: - Execution of Street light

In CPWD Works Manual, Para 17.3 of Section 17, shows the list of specialized items/jobs/works for Civil & Electrical works, wherein the work of street lighting does not appear in the list of specialized job.

Whereas Project Manager (Elect.), Flyover Project, Dwarka had sought permission from the Engineer Member for declaring the work of street lighting of sectorial roads, (roads below 30m width) at Dwarka as specialized job. Necessary approval for roads below 30 M wide was conveyed to Project Manager (Elect.), Flyover Project, Dwarka vide letter No. EM.4(2)2000/Elect./8056, dt. 18/7/02. This circular was misinterpreted by some Executive Engineers (Elect.) and treated the work of street lighting as specialized one which is not correct.

It is enjoined upon all Electrical Engineers that the work of street light shall be not considered as a specialized work in future except the list of specialized items/jobs/works mentioned in CPWD Works Manual 2003.

This issues with the approval of Engineer Member, DDA.
