**OFFICE OF THE SUPERINTENDING ENGINEER (ENV)**

No: DSIIDC/SE(Env)/NO/Deptt./2020/

Dated:- 28.07.2020

**Subject: Nomination of a Nodal Officer for the implementation of Action Plan of DSIIDC/Industries Department, GNCTD submitted to the Monitoring Committee appointed by Hon'ble NGT regarding Abatement of Water Pollution in Delhi Including Up-gradation of Common Effluent Treatment Plants (CETPs).**

Sir,

As you are aware that Hon'ble NGT has appointed a Monitoring Committee to oversee the directions of Hon'ble NGT in the matter of Manoj Mishra Vs. UOI & Ors. (O.A No. 06/2012) for abatement of water pollution in river Yamuna. An action plan has been prepared and submitted by DSIIDC/Industries Deptt. to Monitoring Committee for the abatement of water pollution in the Industrial Areas of Delhi including upgradation of Common Effluent Treatment Plants.

Further, for the implementation of the Action Plan, DSIIDC has appointed CSIR-NEERI as Project Management Consultant on 05.11.2019. The action plan comprises of following activities:

**Part-A: Related to existing CETPs**

1. Formulating an action plan for the survey of the individual industries in various industrial areas for ensuring their connectivity with the waste water conveyance system of CETPs and identifying industrial units violating environmental pollution norms.
2. To assess the overall functioning of all 13 CETPs through a physical survey.
3. To formulate an action plan for 13 CETPs after the study of the survey report in terms of:
  - a) Required up-gradation and retrofitting of CETPs to make them compatible with the composition of effluents reaching CETP for capacity utilisation (use of CETP as STP) and to conform the effluent discharge standards and to work out cost associated with this task.
  - b) Management of the hazardous sludge being generated by CETPs.
  - c) Maximizing utilisation of treated water from CETPs in order to achieve Zero Liquid Discharge and reducing dependency of greenbelts/parks in and around CETPs on ground water.

*AD*

- 1 -
- d) One day training program for the CETP staff for Standard Operating Procedure (SOP) and best sludge management practices.

**Part-B: Related to proposed wastewater treatment facilities (ETP/STP/CETP)**

1. To formulate an action plan to treat and dispose of Industrial effluents from the 11 industrial clusters not connected with any CETP.

Besides above, the Hon'ble NGT has also directed that the waste water flowing into the drains should also be treated before it falls into the river Yamuna. Accordingly, the possibility of treating the waste water of storm water drains in the industrial areas in the existing CETPs is being explored and efforts are being made that all the waste water generated in the industrial area should be treated in CETPs.

As various services along with piping networks etc, like sewerage system/conveyance system, storm water drains etc. are being looked after by different agencies, such as DJB, DDA, MCDs, PWD, IF&C etc. in different industrial areas, coordination among these agencies are very much required for the management/treatment of waste water generated in the industrial areas. Accordingly, it has been felt appropriate that a Nodal Officer may be nominated by each of the agencies who can interact on behalf of his department/organisation and provide the information required for the study being done by CSIR-NEERI

In view of the above, you are requested to kindly nominate a Nodal officer from your department and the details of the nominated Nodal officer Viz: Name, Designation, Address, Mobile No./Landline No. may please be forwarded to this office at the earliest.

Yours faithfully,

  
(SHARAT KUMAR)  
Suptd. Engineer (Env)
