

DELHI DEVELOPMENT AUTHORITY

(Engr's Secretariat)

No. Engr. (SE)/CP/TE/PL/2414 13, February, 1990

CIRCULAR No-252

Sub: Approvals to samples - Raw materials.

Before raw materials are allowed to be used in the work, necessary tests are to be carried out for their essential qualities. This job of testing is necessary for steel, sand, tiles, aggregate etc. Some times other fabricated materials or finished goods are brought to site, to ensure that approved materials are used at site, It is necessary that these fabricated/processed materials are tested for their quality for usage at the site is approved. In fact these instructions are not new but these are reiterated to ensure that no materials are allowed to be used on the work, till they are cleared in adgnce for its quality, standard etc.
