In a case, tenders were invited by an Executive Engineer and one of the conditions incorporated in the NIT was as follows.

"Only those contractors would be eligible for issue of tender documents who have completed at least three works of similar nature each costing not less than Rs.10 lacs in Govt./ Public sector undertaking and who produce certificates of satisfactory completion of such works and performance from them".

The Executive Engineer accepted the photocopies of experience certificate said to have been issued by another office, without verifying from the original certificate. On the basis of the experience certificate work was awarded to the contractor. Subsequently it came to light that the experience certificate of the contractor was not genuine.

It is therefore enjoined on all Executive Engineer that whenever a contractor produces photocopies of experience certificates and documents, the same should be verified by writing to the Authority who has given the certificate. In important cases a direct reference shall be made.
