

DELHI DEVELOPMENT AUTHORITY.

NO. EM1(10)83/ 7175

DATED:

Circular No. 205.....

In a number of cases accidents take place while doing excavation in drains, trenches etc. The CPWD specifications for excavation in foundation trenches or drain (soft/hard soil) are very clear about the method of excavation dumping of excavated soil & precautions to be taken.

An extract of para 2.9 of C.P.W.D. specification 1977, Vol.I, for works dealing with the excavation in trenches or drains etc. is heroby enclosed for reference and strict adherence while executing the work.
