

DEVELOPMENT AUTHORITY

NO: 121(10)83/1497

Dt: 2-2-87

CIRCULAR NO. 188

It has come to notice that in some NITs regarding specifications it is mentioned that GMD Specifications with 'uptodate correction slip' will be applicable. The mentioning 'uptodate correction slip' is vague and can result in contractual complications. To avoid ambiguity it will be appropriate that exact number of correction slips are specified as are applicable at the time preparation of NIT.

All Engineers are requested that in future exact number of correction slips are specified in the NITs.
