Date:- 10 July 1987.

CIRCULAR NO. 207

Part of Clause 33 of form 7 & 8 of the agreement is re-produced as under:

" If required by the Engineer-in-Charge, all surplus or un-servicable materials that will be left with him after completion of the contract or at its termination for any reason whatsoever on being paid or credited such price as the Engineer-in-Charge shall determine having due regard to the condition of the materials. The price allowed to the contractor however shall not exceed the amount charged to him excluding the storage charges if any." To enforce this clause, it is necessary to indicate issue rate and storage charges separately for the materials stipulated for issue under clause 10 of form 7 & 8.

It is enjoined upon all the concerned that the storage charges should invariably be shown separately in the issue rates in contracts and the cost adjustment from the contractors may be made accordingly.
