Regular complaints from the allottees of DDA flats were received in DDA, MCD as well as MoHUA. w.r.t. interpretation of provisions made in the existing approved policy, leading to neighbourhood disputes & court cases.

The allottees have also been seeking clarifications on certain issues like right of access to common spaces, roof rights, unauthorized and illegal constructions and illegal constructions by certain allottees, permission to the installations of solar panel on the rooftop etc. Members requested that charging points for Electric Vehicles should also be provided, which will be examined separately. In order to resolve these complaints/requests, a Committee was formed under the Chairmanship of Chief Architect/DDA to 'Revisit the provisions made in the existing Policy to work out recommendations' for better clarity and interpretation of the same by the masses. Common areas including roof terrace & common staircase (extended to roof terrace) of the block shall remain common to all the residents/owners of the block and cannot be used by any particular resident/owner or group of residents/owners for their exclusive use.
